Putting: Inbuilt channel to aid green reading, setup, path, target and body alignment, square the putter face, length control, target visualisation, stroke, connectivity, control back-swing.

For more details, check out our Modes of use document posted on our homepage.

Product Features:

Safe – Made from lightweight flexible rubber, it sits under your ball, giving true alignment. Safe to use, no sharp edges and it won't scratch your clubs. Perfect for Juniors and golfers of all abilities.

Versatile – 40 plus ways to improve your game: putting, full swing and short game. Use on the practice range, putting greens, at home, on- course and even in bunkers. Use singularly or as a pair to create a multitude of practice routines and drills. Also fits over the rubber tee of a driving bay mat.

Portable – Ready to use, no assembly. Slips easily into the side pocket of any golf bag, so it's always on-hand for a practice session or pre-round warm-up. In a practice round, carry Aim-Mate in your pocket for convenience.

Effective – Highly visual training aid to help you set up and aim correctly on every shot. Aim-Mate establishes accurate alignment and feedback is instant. Full swing mode helps to reinforce the swing path. Putting mode improves green reading skills and the inbuilt markings help to control the backswing.

“We are light, we are flexible, we are the next generation of training aid!”

Aim-Mate™
More than just an alignment aid...

“Aim-Mate is an effective, simple and massively versatile training aid. Your game should not be without one!”
